Dear Mr. Secretary General,

I am pleased to confirm that Sustainability Excellence Management Consulting Limited supports the ten principles of the Global Compact with respect to human rights, labor, environmental and anti-corruption.

With this letter, we express our aligned interest with the UN Global Compact in progressing those 10 principles within our sphere of influence and throughout our business collaborations. We are committed to making the Global Compact and its principles part of our strategy, culture, and our daily work operations, communication with clients. Sustainability Excellence will make a clear statement of this commitment to all our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is an annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and *annually* thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the Chief Executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions to implement the Global Compact Principles, in each of the four issue areas (human rights, labor, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Best regards,
