Re: 3BRIDGES Community
To Participate in the UN Global Compact

3Bridges Community supports the ten principles of the UN Global Compact, with respect to human rights, labour, environment and anti-corruption. With this commitment we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

- 3Bridges will contact the focal points of the relevant Local Network(s) to explore participation as potential partners to business on specific projects.
- We will seek to support specific initiatives that relate to building community resilience
- We will analyze and review Communications on Progress (COPs) and provide feedback directly to companies in the spirit of continuous improvement particularly where greater community involvement may be needed.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,
