

Dear Mr. Secretary General,

I am pleased to confirm that Glopolis supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anticorruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

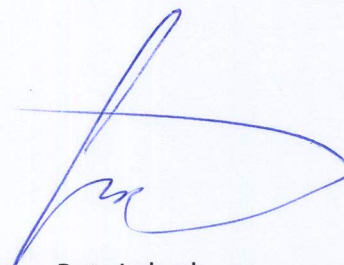

- Engage with Global Compact Local Network Czech Republic
- Join Partnership Projects on Corporate Sustainability
- Participate in Global Compact local events

This is going to happen in addition to our current engagement with the progressive business partners such as the Czech Business Council on Sustainable Development we are members of as well as with the local UN partners such as the United Nations Information Centre in Prague or the UNDP Regional Centre for Europe and the CIS.

In particular, we will continue to engage companies, propose activities and projects and develop multi-stakeholder partnerships in the three main areas of our expertise related to Global Compact: responsible food consumption (especially food waste and palm oil issues), response to climate change and energy transformation, tax justice and positive role of financial markets.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely Yours,

Petr Lebeda
Director
