Dear Mr. Secretary General,

I am pleased to confirm that Bridging Consulting Ltd supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles.

We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. Bridging Consulting Ltd will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles.

We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas. This includes:
  - ◆ Promote the principles of Global Compact to our customers and clients.
  - ◆ Prepare and deliver education and knowledge transfer initiatives focused on topics related to the Global Compact in cooperation with our partners and specifically targeted to top-managers and executives.
  - ◆ Conduct applied research and thought leadership in relation to the Global Compact principles.
  - ◆ Disseminate the Global Compact principles.
  - ◆ Provide support for UN Global Compact business participants in their own sustainability implementation and disclosure efforts (as part of our consultancy offerings).
  - ◆ Lend capacity to Global Compact Local Networks and/or the Global Compact Office
- A measurement of outcomes in terms of the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results as per required Communication on Progress (COP).

Sincerely yours,

Prof Dr Ing David Luigi FUSCHI
