New York, NY 10017
USA

Dear Mr. Secretary-General,

HEALTH & FINANCE INTEGRATED is an award winning provider of specialised financial advice in Australia. We will do all we can to better the lives of our clients, and use the profits derived from our operation supports our core social impact mission by creating jobs for people with disability, and making financial contributions to worthwhile social causes that support disadvantaged people and communities.

I am pleased to confirm that HEALTH & FINANCE INTEGRATED supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. HEALTH & FINANCE INTEGRATED will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and *annually* thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is *separate* from our initial letter of commitment to join the Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

William Johns CFP, MDisabilityStud, B.Bus(AppFin, FP)
