USA

Dear Mr. Secretary General,

I am pleased to confirm that our association called the Polish Cleaner Production Movement Society (in Polish: Stowarzyszenie Polski Ruch Czystszej Produkcji) supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public. It is worth mentioning, that we have been supporting Global Compact principles since 2001, as the initiative has been introduced by UN Secretary General, Kofi Annan. We promote 10 principles of Global Compact and we have incorporated them into our Voluntary Environmental Agreements Scheme for Polish companies and other institutions.

We also pledge to participate in and engage with the UN Global Compact in the following way:

- Propose and implement partnerships on corporate sustainability and engage with other stakeholders
- Support UN Global Compact business participants as they implement and report on their sustainability efforts
- Engage with Global Compact Local Networks
- Join and/or support issue platforms and workstreams

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Krzysztof Galeja
President of the Polish Cleaner Production Society

Cleaner Production - the shortest
way to Sustainable Development
