Dear Mr. Secretary-General, I am pleased to confirm that N Gage Consulting, the leading government relations consulting firm in the Middle East supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption.

With this letter, we express our intent to implement those principles and we are committed to making the Global Compact and its principles an integral aspect of our business strategy, corporate culture and daily operations of our company, and to collaboratively engage in projects and endeavors that will support the goals of the United Nations and the Global Compact, particularly the Millennium Development Goals.

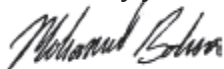

We hereby confirm that N Gage Consulting will make a clear statement of this commitment to our partners, clients, stakeholders and the general public. We are aware that we will be committed to submit a Communication on Progress (COP) that describes our company's efforts to implement the ten principles.

We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

This will include:

- A statement signed by our chairman expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions that the company has taken or plans to undertake to ensure the implementation of the Global Compact principles in each of the four issue areas of human rights, labour, environment, and anti-corruption.
- A quantitative and qualitative measurement of outcomes.

Sincerely yours,

Mohamed Bahaa
