Dear Mr. Secretary-General,

I am pleased to confirm that Method Products, Inc., supports the ten principles of the Global Compact with respect to human rights, labor, environment and anti-corruption. With this communication, we express our intent to continue to advance those principles within our sphere of influence. Since our inception, we have been committed to engaging the potential of our business to effect change in social and environmental milieus, and will continue to do so in our strategy, culture, and operations. Method Products, Inc., has made a clear statement of this commitment to our stakeholders and to the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the global compact, and every year thereafter according to the Global Compact COP policy.

Sincerely yours,
