Dear Mr. Secretary-General,

I am pleased to notify you that Midwest Die Casting Corp has always assumed an operating environment that encourages the ten principles of the Global compact with respect to human rights, labor, environment, and anti-corruption. With this letter, we express our intent to continue to advance those principles within our sphere of influence. We have always been committed to making these principles part of our strategy, culture, day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. Midwest Die Casting Corp has always been committed to being an outstanding member of our community along with encouraging our vendors and customers to do the same.

Midwest now recognizes that a key requirement for participation in the Global Compact is the annual submission of a communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support the public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Until recently Midwest Die Casting Corp had not been made aware of the annual requirement to submit a COP but will now do so.

Regards,

Mr. Greg Gillstrom
President
