Dear Mr. Secretary General,

I am pleased to confirm that **Society for Economic Empowerment and Entrepreneurship Development (SEEED)** supports the ten (10) principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate and engage in the activities of the UN Global Compact where appropriate and feasible through the following ways:

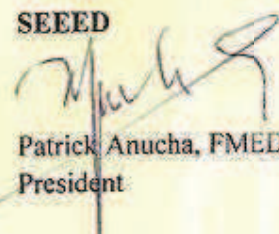

- ❖ *Active participation and engagement in Country/Local Networks/Global events and further involvement in specialized initiatives and work streams.*
- ❖ *Engagement in partnership projects with businesses and non-profit organizations in UN Global Compact initiatives.*
- ❖ *Incorporating the principles of Global Compact in our programs, activities and to further engage with Global Compact Network in the promotion of the principles of Global Compact through public engagement and education.*
- ❖ *Facilitating the engagement of our members in UN Consultations on Global Compact related activities.*

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact.

We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

SEEED
