Secretary-General
United Nations
New York, NY 10017
USA

Dear Mr. Secretary General,

I am pleased to confirm that the Devnet Association fully supports the ten principles of the UN Global Compact. Devnet has been closely connected with the United Nations Development Programme since its foundation in Rome in August 1989 and has executed two successful global projects for the sustainable development aims of the United Nations, TIPS and WINNER.

We believe that the corporate sector must play a significant role in the implementation of the sustainable development goals. We will pursue our intent to promote in all our initiatives respect for human rights, just labor conditions, environmental safeguards and corruption free investments amongst our stakeholders.

We are committed to undertake initiatives in partnership with the UN Global Compact both at the global and local levels engaging the private sector in activities geared to create corporate social responsibility at local and global levels and promoting investment initiatives that respect the 10 principles of the Compact.

We fully accept our responsibility to submit as requested by the UN Global Compact every two years, starting two years after we join it, and thereafter submit a biennial progress report describing our activities and how they relate with the purposes of the Compact.

We assure that we are fully committed to collaborate with this innovative UN program, as we were in our prior collaborations with UNDP for the implementation of TIPS and Winner.

Accept, Mr. Secretary General, the assurance of my highest consideration.

Arsenio Rodriguez
Chairman and CEO
