New York, NY 10017
USA

Dear Mr. Secretary-General,

I serve as the president and CEO of **Netafim**, a global leading drip irrigation company, with factories and offices in over 120 countries. Netafim was founded in 1965 by Israeli farmers and agronomists on the idea that micro-irrigation is a solution to one of the world's most urgent problems: lack of quality water for food production. That idea is still at the heart of all Netafim products, which are designed to promote water conservation.

I am pleased to confirm that Netafim supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. *NETAFIM* will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact, and every year thereafter according to the Global Compact COP policy.

Please find attached general information about our company, as well as the contact details of the focal point for communication with the Global Compact Office.

Sincerely yours,

Ofer Bloch
President & chief executive officer
