Dear Mr. Secretary General,

I am pleased to confirm that The British International School, Cairo supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s): to operate as a responsible employer, in alignment with the universal sustainability principles; to take actions that support the society around us by enabling local Egyptian schools to benefit from our professional development activities; to make this a sustainable commitment within the school, at different levels, and to involve all stakeholders (students within our developed MUN programs, staff supporting the programs and parents as supporters of our MUN programs; to report annually on the progress we are making; and to ensure that we have local impact in the communities we serve and support through our charitable activities.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organisation's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely Yours,

Yasser Hashem
Chairman
