Dear Mr. Secretary-General,

RE: LETTER OF COMMITMENT

I am pleased to confirm that *Matric Drillers Limited* supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. *Matric Drillers Limited* will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and *annually* thereafter according to the Global Compact COP policy.

We believe in practicing the 10 principles of the United Nations Global Compact applicable to our business endeavors, we shall have a brighter generation in the future.

Sincerely yours,

Mr. John Gitau Macharia,
Director.
