Dear Mr. Secretary-General,

Experts in ethical and sustainable plantation management in Brazil, Unique gladly supports the ten principles of the Global Compact on human rights, labor, environment and anti-corruption. We are committed to implementing and upholding these principles in all aspects of our business, and across all our spheres of influence.

The Global Compact and its principles will become a fundamental part of the strategy, culture and daily operations of our company, and we will engage in collaborative projects that advance the broader development objectives of the United Nations (particularly the Millennium Development Goals).

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP), describing our company's efforts to implement the ten principles. As supporters of public accountability and transparency, we commit to report our progress within one year of joining the Global Compact and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the managing director expressing continued support for the Global Compact and renewing our on-going commitment to the initiative and its principles.
- A description of practical actions (i.e. the disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in human rights, labour, environment and anti-corruption.
- A measurement of outcomes that summarizes the degree to which performance indicators were met.

Yours sincerely,

A handwritten signature in dark ink, appearing to read "A Goodman".

Mr. Andrew Goodman
Managing Director
