Dear Mr. Secretary-General

I am pleased to confirm that Nigeria Liquefied Natural Gas Ltd ("NLNG") supports the ten (10) principles of the United Nations Global Compact ("UNGC") on human rights, labour, environment and anti-corruption.

With this communication, we express our intent to continue to implement those principles and to advance them within our sphere of influence.

We are committed to making the UNGC and its principles an integral part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. NLNG will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten (10) principles. We support public accountability and transparency, and therefore commit to report on progress within one (1) year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the Chief Executive Officer expressing continued support for the Global Compact and renewing NLNG's ongoing commitment to the initiative and its principles. We understand that this is separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the four (4) issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours

Babs Omotowa
Managing Director/CEO
