USA

Dear Mr. Secretary General,

I am pleased to confirm that Middle East Model United Nations (MUN) supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public. We also pledge to participate in and engage with the UN Global Compact in the following ways:

- We support and educate our students about Sustainable development and the environment conservation and are willing to participate and encourage various stakeholders to implement the ten principals in their work culture.
- We further will encourage companies in the United Arab Emirates local network to implement corporate sustainability as we want to challenge the status quo of the traditional way of doing business and create awareness both amongst the current business circles operating as well as the future business set up by the youth of today to be conscious of the consequences of their action. Everyone can contribute to a safer, better greener environment in which rights are respected.
- MUN will support UN Global Compact business participants as they implement and report on their sustainability effort.
- Engage with Global Compact Local Networks and join issue platforms and workstreams.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Ishrat Siddiqui
Managing Director, Middle East Model United Nations
