

Center for Research & Accreditation of Innovative Labs in Education

Dated : February 12, 2016

To
Secretary General
United Nations
New York, NY 10017 USA

Respected Secretary General, UN Global Compact,

I am pleased to inform that Center of Research & Accreditation of Innovative Labs in Education under the charter of Telecom Research & Educational Trust supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways;

1. Deploying Innovative Labs in Education as a breeding-ground community to help institutions and students around the world create sustainable solutions for developing and nurturing new and existing solutions in building innovative remote access labs for cognitive learning in IT, Security, Data Networks, Internet of Things and Science projects at K-12.
2. Oversee the creation and evolution of rigorous quality standards, develop and deliver quality training and consultation to help institutions achieve and maintain Accreditation, and coordinate ongoing research, advocacy and communications efforts aimed at improving cognitive learning in education through remote access labs

We recognise that a key requirement for participation in the Global Compact is the submission of Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

We commit to support and participate with the Five Points Youth Foundation 2015-2020 United Nations Global Compact Local Area Networks caring for Climate Campaign.

Sincerely yours

Idnan Asad
C.E.O & Secretary
Center of Research & Accreditation of Innovative Labs in Education
