Dear Mr. Secretary-General,

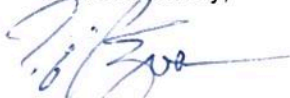

MøllerGruppen is a family owns group involved in import, sale, servicing and financing of Volkswagen, Audi and ŠKODA cars. The company is represented in Norway, Sweden, Latvia, Lithuania and Estonia. The group employs approximately 4000 persons and have total revenues of well over 2 billion Euro.

I am pleased to confirm that MøllerGruppen supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects, which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. MøllerGruppen will make a clear statement of this commitment to our shareholders/ owners and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles and support any specialises UN Global Compact issue platform that our company may join at a later date. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions (i. e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment and anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met or other qualitative or quantitative measurements of results).

Yours sincerely,

Mr. Pål Syversen
CEO
