### **Letter of Commitment**

Empower the Community and Environmental Conservation Organization (E.C.E.C.O Tanzania) is a Non Governmental Organization registered in Tanzania under the Ministry of Community Development, Gender and Children, in 2014 with the aim of helping poor people especially in rural areas to fight against poverty and conserve their environment for the better life.

It is our sincere gratitude to commit that we support the ten principles of the UN Global Compact with regard to human rights, labour, environment and anti-corruption. We are able and ready to support these principles and participate and engage with the UN Global Compact in the following ways: support and respect the protection of internationally proclaimed human rights, elimination of all forms of forced and compulsory labour, effective abolition of child labour, support a precautionary approach to environmental challenges, undertake initiatives to promote greater environmental responsibility and work against corruption in all its forms.

We are committing to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact policy.

Yours Faithfully

Alfan O. Mohamedi  
Director – E.C.E.C.O Tanzania.
