Commitment Letter for Non-Business Organizations

Dear Mr. Secretary General,

I am pleased to confirm that **International Sustainability and Carbon Certification Association** supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

The vision of ISCC is to contribute to more sustainable supply chains for food, feed, chemical and bio-energy markets. ISCC is based on a continuous multi-stakeholder dialogue. The ISCC System implements sustainability certification based on the standard developed.

We pledge to participate in and engage with the UN Global Compact by engaging with Global Compact Local Networks, by joining and supporting issue platforms and workstreams to our best, by supporting companies to engage and implement UN Global Compact sustainability efforts and by proposing partnerships on corporate sustainability and engage with other stakeholders.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Prof. Gernot Klepper Ph.D.
Chairman of the ISCC Board
