Dear Mr. Secretary-General,

I am pleased to confirm that **The Malaysian Education And Skills Development Organization** supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

- 1) To provide shelter, aid, education and skill development centre for refugee, asylum seeker and opportunities they need to live independently. Our main motive is to protect refugee and asylum seekers from persecution and destitution and also empower people and enable self-determination.
- 2) To create a new dimension in the learning skills to adult school leavers who out of sheer academic flow to offer national and international vocational skills certification in order to provide opportunities for trainees to get a job as a skilled workers or entrepreneurs.
- 3) To raise funding, disburse scholarship and provide shelter to the neediest student.
- 4) To support and organize education and skill related conferences, seminars, training, exhibition, events and social welfare activities nationally and internationally.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Yours truly,

The Malaysian Education and Skills Development Organization

.....
