Dear Mr. Secretary General,

I am pleased to confirm that **Young Fishers Global Network** supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

- The above NGO will intensify effort to contribute to agricultural development to complement the UN Global Compact goals and initiative.
- We will engage in programmes that will reduce poverty in African secondary schools so as to prepare the youths for the future, not only that, to succeed, we the old stock after we are out of the field.
- We will send an updates to the UN Global Compact and attend all conferences and summits that UN Global Compact may organize in the future. We are ready to comply with UN Global Compact on any developmental initiative.
- The school fisheries' projects by the NGO has been yielding results among the youths that, life is a process, one need to grow into greatness, not to jump through the growth of the fish, we have been given them free of charge.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,
