You're Excellence Sir,

RE: JOINING UNITED NATIONS GLOBAL COMPACT

Ecological Christian Organisation (ECO), a national NGO in Uganda writes to join and commit to the ten principles of UN Global Compact enshrined under the four core areas of Human rights, Labor, Environment and Anti-Corruption. With this commitment with the Global Compact we express intent to support the advancement of such principles in our area of work and communicating them adequately to stakeholders and the general public.

As the UN Global Compact advances these principles to ably support SDG success globally, we pledge to participate and engage in a number of ways locally and sub-locally primarily through networking, sharing best practices, mobilizing both business and non-business stakeholders towards low carbon economic growth and continued advocacy.

We recognise that the key requirement for participation in the Global Compact is the submission on the Communication of Engagement (COE) about our efforts to advance the 10 principles, SDG's and engagement with Global Compact. We support public transparency & accountability and will thus be able to report in the two years of engagement and according to the COE policy.

Yours Sincerely,

Isaac Kabongo
Executive Director, ECO
