Dear Mr. Secretary General,

I am pleased to confirm that Hope Foundation for Social entrepreneurship (HoFoSe) Tz, supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact by firstly, Advocate and localize the sustainable development agenda where every community has a responsibility to shape our future and achieve development. Secondly, to take a action and act as catalyst of collective public measures to be the heart centre of development transformation in order to shape the future using business principles while using creative and innovation ways to achieve the sustainable future. We will be the champions of change and spearhead the effective review, follow up and implementation of SDGs by joining with other stakeholders to achieve this Agenda.

We recognize that a key requirement for participation in the Global Compact is the submission of a communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

TUMAINIEL IBRAHIM MANGI.

Founder & CEO
