Dear Mr. Secretary-General,

I take great pleasure to inform you that New Allied Management Services believes in and has decided to join the Ten Principles of the UN Global Compact on human rights, labour, environment and anti-corruption.

We are committed to advance the Global Compact principles in the operation of our business by incorporating the concepts into our business plans and strategies. So, our current and future operations will be carried out in ways that will help achieving the underlying goals of the principles. We believe that the ten principles are important to have a sustainable growth in any economy while keeping any business on the safe side. Moreover, they are believed to bring in innovation and lead to a healthy competition.

We understand the importance of the annual submission of a Communication on Progress (COP) that will clearly mention our efforts to implement the ten principles. In this regard, we will be submitting an annual report on our achievements in terms of the ten principles. The submission of COP is believed to promote transparency and accountability, therefore, we commit ourselves to report on progress within one year of joining the Global Compact, and annually thereafter, according to the Global Compact policy. This report will include:

- A statement signed by the managing director on continued support for the Global Compact highlighting our commitment to the Global Compact initiative and its principles, in addition to our initial letter of commitment to join the Global Compact
- A description of practical actions (i.e., disclosure of relevant policies, procedures, and activities) that the company has taken (or plan to undertake) to implement the Global Compact principles in each of the four areas of concern (human rights, labour, environment, anti-corruption)
- A measurement of outcome (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

We hope to enjoy the advantage of becoming a party to, and apply the ten principles of, the UN Global Compact in our business activities.

Yours faithfully,

Mohamed Shahid
Managing Director
