LETTER OF COMMITMENT

Mr. Ban Ki-Moon
UN Secretary General
United Nations Foundation

April 18, 2016

Dear Mr. Ban Ki-Moon:

I am pleased to confirm the commitment of **ayzh** to (i) the UN Global Compact and its ten principles; (ii) take action in support of UN goals; and (iii) the annual submission of a Communication on Progress (COP).

With this communication we express our intent to advance the ten principles within our sphere of influence. **ayzh** are committed to making the Global Compact and its ten principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects that advance the broader development goals of the United Nations, particularly the Sustainable Development Goals related to health. We will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. The submission of our COP will include the three necessary elements: a statement signed by the chief executive expressing continued support for the Global Compact (separate from our initial commitment letter); a description of practical actions to implement the Global Compact principles; and a measurement of outcomes.

This letter of commitment is part of our Business Application to join the UN Global Compact, as well as my acceptance of nomination for the UN Global Compact's new [Local SDG Pioneer](#) program. I was nominated by Leith Greenslade, the UN Special Envoy for Health, as a **Local Business Leader** for my efforts to advance the Sustainable Development Goals locally through the work of my company, **ayzh**, in India. We look forward to working with the United Nations on this important initiative.

Sincerely,

Zubaida Bai
Founder and CEO
