

Advanced International Services

F.M.C. 3271-F

April 26, 2016

H.E. Ban Ki-moon

Secretary-General United Nations

New York, NY 10017

Mr. Secretary-General

Advanced International Services is pleased to join other Businesses in the world in supporting the Foundation for the Global Compact with respect to human rights, labor, environment and anti-corruption defined by the Ten Principles of the Global Compact. The opportunity to enable our company to continue building and promoting a sustainable effort in these principles is a worthwhile endeavor we fully support. We are committed to engaging collaborative projects which will advance these goals further and will publicly declare our participation with the United Nations and other business in this effort.

We are further aware that to accomplish this, a key requirement is the annual submission of a Communication of Progress to the Global Compact. This will enable us to be transparent with public accountability while we mark our progress with the Ten Principles and share our accomplishments in this UN policy with our Global supply chain.

We hereby commit our full support and involvement in these principles and will continue to use the UN Global Compact platforms to bring about broader changes in our corporate positions and advance the goals of the United Nations.

Sincerely,

Tom Gillespie

President

Advanced International Services
