

**YK CENTER**

accelerating  
the new economy

28 April 2016

H.E. Ban KI-Moon  
Secretary-General  
United Nations

Dear Sir,

This is to confirm that the YK Center, a Non-Business Organization, supports the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact with working with our partners and clients, Global & Local Organizations, Companies, Communities, Cities, States and Countries, to realize their needs and help them manage the changes required to support the UN Global Compact principles.

The YK center is home for GlobalGameChangers. Our clients are Global & Local Organizations, Companies, Communities, Cities, Countries, that realize they have to ReBoot their structures and ReDesign in order to Thrive in the New Economy. Our Transformational GameChanging 4D Innovation Labs is a Breakthrough model, based on the 4D of the new Economy: Economy, Society, Environment and Consciousness. We also lead experts globally to support the creation of an agreed 4D Dashboard that will provide agreement on companies' evaluations in the New Economy.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact.

We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

  
Mr. Tal Ronen  
CO-Founder & CEO, YK Center
