We are a non profit organization in Mexico and we developed an innovating social entrepreneurs program; that attends young adults, who use to be during their childhood, street children. Our intervention model, is absolutely integral in its methodology of five steps: Social Health, Education, Capacitation, Self-Employment and Sustainable Housing; and we visualize our target population, as businessmen and professionals.

Thereby, we support the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption.

With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public. We also pledge to participate in and engage with the UN Global Compact in the following way(s): learning activities, public politics dialogues of environmental care, propose and implement partnerships on corporate sustainability and engage with other stakeholders, join networking , and collaborative projects.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years hereafter according to the Global Compact COE policy.

Sincerely yours,
