Date
January 1, 2018

Dear Mr. Secretary-General

Through our on-going support for the United Nations Global Compact since we became a signatory in 2001, we support the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption.

With this communication, we express our intent to implement and work with those principles. We are committed to having the UN Global Compact and its principles as part of the strategy, culture and day-to-day operations of our company. When relevant we are engaged in collaborative projects, which focus on the broader development goals of the United Nations, particularly the Sustainable Development Goals. Skanska makes a clear statement of this commitment to our stakeholders and the general public.

We are also active in our involvement with the local Swedish network, with an aim to continue to move our own company agenda forward on performance relating to the shared agenda. From 2018, our engagement level is Participant.

Sincerely yours,

Anders Danielsson
President and CEO Skanska
