May 18, 2016

Mr. Secretary-General,

Mediators Beyond Borders International supports the ten principles of the UN Global Compact with respect to human rights, labor, environment, and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways: (1) as providers of corporate sustainability services we will continue to assist public and private sector entities to proactively engage their communities in ways including the protection of human and labor rights, (2) we will assist companies to minimize environmental impacts from their operations in ways that support their organizational objectives, and (3) we will be available to other Global Compact members to share our knowledge and expertise in collaborative conflict management, stakeholder engagement, and sustainable development.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact CEO policy.

Sincerely,

Prabha Sankaranarayan
CEO, Mediators Beyond Borders International
