Dear Mr. Secretary-General,

I am pleased to confirm that Momentum Solutions supports the ten principals of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principals. We are committed to making the Global Compact and its principals part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Momentum Solutions will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication of Progress (COP) that describes our company's efforts to implement the ten principals and support any specialized UN Global Compact issue platform that our company may join at a later date. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by myself expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principals. This is separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principals in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measure of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely Yours,

Stephen Arbib
CEO
