Dear Secretary General,

I am pleased to confirm that the AIA Group supports the ten principles of the Global Compact on human rights, labor, environment and anti-corruption.

With this letter, we express our commitment and intent to implement these principles. We shall aim to make the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company. Through our own initiatives and via our collaborative projects we shall advance the development goals of the United Nations, particularly the Sustainable Development Goals. AIA Group shall communicate this commitment to our stakeholders and the general public.

AIA Group continues to support public accountability and transparency and understands that a requirement for participation in the Global Compact is a submission of a Communication on Progress (COP), describing our initiatives and efforts in implementing the ten principles. We commit to reporting on our progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This submission shall include the following:

- A statement by the chief executive expressing our continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.
- A description of the actions that we have taken (i.e. policies that we have developed, procedures, initiatives and future plans) to implement the Global Compact principles in the area of human rights, labour, environment and anticorruption.
- A measurement of outcomes communicating our progress on key performance indicators and targets, whether qualitative or quantitative measurements.

With kind regards,
