Dear Mr. Secretary General,

I am pleased to confirm that Together for Safer Roads supports the ten principles of the United Nations Global Compact with respect to human rights, labor, environment, and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

- Provide our collective knowledge and insight to suggest ways in which localities can improve health and safety in their communities, particularly around road safety.
- Support businesses and other stakeholders as they implement sustainability initiatives around road safety that benefit the city and greater community.
- Propose and implement partnerships on corporate sustainability and engage with other stakeholders.
- Engage with Global Compact Local Networks.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Scott Ratzan  
Chairman  
Together for Safer Roads
