Dear Secretary-General,

I would like to express my support with regard to Global Compact's initiative and its principles.

We treat all our employees globally in a fair and equal manner with the same footing and emphasis, no matter what their race, religion, ethnicity, nationality, age, sex or disability. We have a commitment to initiative and motivation by giving employees a chance to productively make improvements. We ensure sustainable use of resources without degrading the environment.

We are a medium size publishing company, so do not have a labour force. Most of our clients are globally based banks so we have high principals with regard to corruption and bribery.

Most of our communications are though emails and the internet.

Targets in the coming year we hope to employ around 20 to 25 more employees to join our team and increase publication. We will send annual submissions on progress.

Sincerely yours,

Mr Varun Sash
CEO, GBAF Publications Ltd.

Dear Mr. Secretary-General,

I am pleased to confirm that GBAF Publications Ltd supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company and to engaging in collaborative projects which advance the border development goals of the United Nations, particularly the Millennium Development Goals. GBAF Publications Ltd will make a clear statement of this commitment to our stakeholders and the general public.

We recognise that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency and therefore commit to report on progress within one year of joining the Global Compact and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of practical actions that GBAF Publications Ltd has taken or plans to undertake to implement the Global Compact principles in each of the four issue areas.
- A measurement of the outcomes.

Sincerely yours,

Mr. Varun Sash
