Dear Mr. Secretary-General,

I am pleased to confirm that Zensar Technologies Ltd. supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engage in collaborative projects which advance the broader development goals of the United Nations. In addition, we would like to declare our intention and commitment to focus on gender equality and women empowerment principles in line with the UN Sustainable Development Goals and the ten principles of Global Compact. Zensar Technologies Ltd. will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles and support any specialized UN Global Compact issue platform that our company may join at a later date. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This will include:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact
- A description of practical actions to implement the Global Compact principles in each of the four issue areas
- A measurement of outcomes

Sincerely yours,

Mr. Sandeep Kishore
Chief Executive Officer and Managing Director of Zensar Technologies Ltd.
