Dear Mr. Secretary General,

I am pleased to confirm that Education & Sports Development Association supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

1. We would like to work against suffered abuses, discrimination and marginalization, including at the hands of business of the indigenous people.
2. Respect and support Human Rights by awareness through empirical work, education and other means especially for females and prisoners.
3. Social Sustainability
4. We would like to work for imparting education on Water and Sanitation and their impacts and effects especially on children in Hill areas.
5. We would also like to engage locally.
6. We would be prepared and ready to perform any other task or work which United Nations would like us to do.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

V.K. Gupta

President
