

H.E. Ban Ki-Moon

Secretary-General United Nations

New York, NY 10017 USA

Dear Mr. Secretary General,

I am pleased to confirm that the International Organization of Reliability Centered Management Professionals supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption.

With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):  
By promoting Reliability re reduce waste in manufacturing and can reduce the consumption of both repair marts and lubricants, thereby reducing the global impact of producing those things.

Reliability is also supportive of better Safety and Environments in the workplace which improve the human condition accordingly. We will continue to educate and engage the public and corporate citizens of the world in the achievement of excellence in management and operations reducing waste and in-efficiencies in manufacturing sector. We encourage all Organizations committed to global efficiency to join with us in supporting this Compact

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

John W, Countz

CEO and Director of Operations
