Dear Mr. Secretary-General,

I am pleased to confirm that *Truform Laser Dies* supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

Truform is pleased to implement the Global Compact's strategy into our business environment. We are aware and prepared of the implications of the UN Global Compact that are set out for our company and look forward on making a difference and showing an example to other companies. We will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Sincerely Yours,
