Dear Mr Secretary-General,

I am pleased to inform you that FFW Denmark supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

With this letter, we express our intent to further those principles within our sphere and possibilities of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and daily operations of our company, and to engaging in collaborative projects which advance the broader development goals of the UN, and particularly the Millennium Development Goals. FFW Denmark will state this commitment clearly to our stakeholders as well as to the general public.

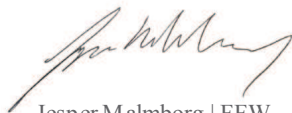

We understand that in order to participate in the Global Compact, the annual submission of a Communication on Progress (COP) is required, in which our company's efforts to implement the ten principles are described. Public accountability and transparency are highly valued by us, and we therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

This will include:

- A statement signed by me, the chief executive, expressing continued support for the Global Compact and renewing our continued commitment to the initiative and its principles, separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions taken or planned by our company, such as our engagement for education and health in Kenya with the Gundua Foundation, in order to implement the Global Compact principles in each of the four issue areas.
- A measurement of outcomes and results of these actions.

We would be honored to become a part of Global Compact and contribute to furthering its cause as stated in the ten principles.

Sincerely yours,

Jesper Malmberg | FFW
CEO Denmark
