Cologne, 27 July 2016

Dear Mr Secretary-General,

We are a young fair-fashion label from Cologne, Germany, and we want to make a revolutionary change in one of the world's largest and dirtiest industries: The textile sector. I am pleased to let you know that we do not only support the ten principles of the Global Compact completely, but we already work on implementing them in our sphere of influence every day – step by step.

Since 2007 our main goal is to become the fairest fashion label in the world and to show the big players that it can be done better. No wage slavery, no chemical madness, no cheap mass production. That is our firm belief and taking responsibility for man and nature is not an option for us but a must. So far we are one of the leading fair-fashion companies in Germany with a fast growing team and four collections every year.

With this communication, we express our intent to continue our journey and to keep making further improvements. The Global Compact and its principles are already part of our strategy, culture and day-to-day operations and we are pledging to maintain our high efforts towards our common goals. We also confirm that we intent to engage in collaborative projects which advance the broader development goals of the United Nations; particularly the Sustainable Development Goals.

Social Fashion Company GmbH will make a clear statement of this commitment to our stakeholders and the general public. We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP).

We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Sincerely yours,

(Martin Höfeler – CEO)
