## EXPLANATION

Tianjin Kelin Mold Technic Co.,Ltd failed to communicate progress in 2010. The main reason is the relative responsible department had some personnel transfer, there were some misunderstanding during the work handover. We already amended the omission and still have the great passion to continue to support ten principles of the Global Compact. After we submit the COP of 2010, we would submit our 2011 COP before December of this year continually.
