

His Excellency Ban Ki-Moon

04.09.2016

Secretary General
United Nations

Subject: Letter of Commitment

Respected Secretary General,

On behalf of Daffodil International University (DIU) I am writing to confirm that DIU supports the ten principles of the United Nations Global Compact Program and we acknowledge the important role of the Global Compact Local Networks in diffusing United Nations values, principles and facilitating partnerships with businesses on a broad scale. Here, we commit to make sincere efforts to sustain the declared mission as an academic institution.

We confirm that the vision of the University, our expertise and strength align absolutely with UN Global Compact Principles and we believe we can add value to the program as well. DIU is among the top ranked private Universities in Bangladesh and we have expressed our responsibility and accountability in the past towards the country and all nations with respect to human rights, labor, the environment and anti-corruption. Previously we took an initiative to promote these aspects and we have the same strategy ahead.

To take part with the initiative of United Nations Global Compact, we also like to participate in and engage with UN Global Compact in the following ways:

- Developing Competent Human Resources
- Initiating Art of Living Programs for Students & Teachers to develop their sense of CSR
- Creating Awareness on Global Compact issues through special workshops & seminars.
- Information dissemination on SDG's
- Creating a special forum for discussion
- Awareness creation on Cross Cultural Competency

Through this letter we express our intent to continue the initiatives and give the same message to the partner organizations, industries and general people to actively take part in the initiative through local networks. We believe and strongly sense our responsibility and we express it clearly in our activities. We will report on our activities within two years after joining and maintain COE policy. We look forward to engage in specialized initiatives, partnership projects and hold the UN Compact mission ahead.

Thanking You,
Sincerely

MD Sabur Khan
Chairman, BoT
Daffodil International University
