Dear Mr. Secretary-General,

I am pleased to confirm the Toner Direct Bulgaria supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

With this communication, we express our intent to advance those principles within our sphere of influence. We are committed that the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals Toner Direct Bulgaria will make a clear statement of this commitment to our partners and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We realize that our failure to submit the COPs since 2008 had consequences and this happened mostly because the management lost communications with the Marketing department. The changing of employees also assist this failure to continue. We assure from now on we will prepare COP on time. We support public accountability and transparency, and therefore commit to report on progress within one year of re-joining the Global Compact, and annually thereafter commit to report on progress within one year of re-joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Sincerely yours,

Mr. Daniel Costoff
CEO, Toner Direct Bulgaria
