

Grace Cup International Company Limited

19 August, 2016

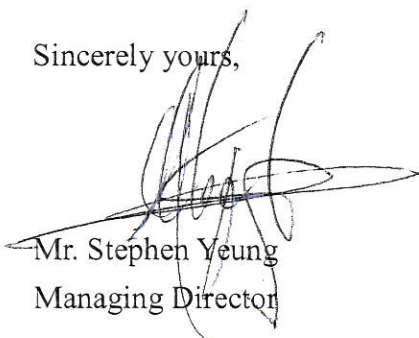

H.E. Ban Ki-moon
Secretary-General
United Nations
New York, NY 10017
USA

Dear Mr. Secretary-General,

I am pleased to confirm that *Grace Cup International Company Limited* supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. *Grace Cup International Company Limited* will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication of Progress (COP) that describes our company's efforts to implement the ten principles and support any specialized UN Global Compact issue platform that our company may join at a later date. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and *annually* thereafter according to the Global Compact COP policy.

Sincerely yours,

Mr. Stephen Yeung
Managing Director

Grace Cup International Company Limited

19th August, 2016

Grace Cup International Company Limited pledges that we would fully support for the Global Compact and renewing our ongoing commitment to the initiative and its principles.

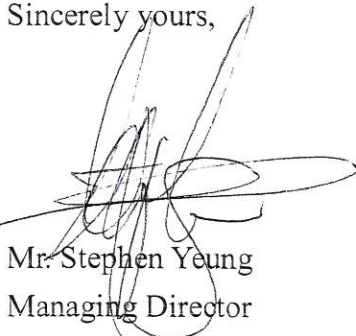

Our products (mainly food) if the packaging are damaged or doesn't look presentable on supermarket's shelves would be distributed to good banks. Our bottled drinks once consumed would be sent for recycling.

Our work force also included physically handicapped persons so as to give them an opportunity to fit into the society, earn a living and to lead a better quality of life.

We worked closely with our suppliers to come out with products that are free from additives and preservatives. Presently we are working with a manufacturer to come out with a monosodium glutamate free seasoning sauce.

We strongly belief in food safety so that all could eat safely and lead a healthy life.

Sincerely yours,

Mr. Stephen Yeung
Managing Director
