H.E. Ban Ki-moon
Secretary-General
United Nations
New York, NY 10017
USA

Dear Mr. Secretary-General,

I am pleased to confirm that Raisio Plc supports the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. Raisio Plc is an international food and feed company and an active developer of sustainable food chain. With this communication, we express our intent to implement those principles. We are committed to making the Global Compact and its principles part of the culture, communications and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Raisio Plc will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles and support any specialized UN Global Compact issue platform that our company may join at a later date. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results)

Raisio Plc also takes action in support of the UN Global Sustainable Development Goals. Our ethical principles support the UN Global Goals and we work actively to promote them. In particular, we have made a public commitment to promote sustainable fish farming in the Baltic Sea region, which supports the goal "Life below water". More information on our commitment can be found here: <https://commitment2050.fi/commitment/benella-rainbow-trout-to-promote-sustainable-fish-farming-in-the-baltic-sea-region>.

Sincerely yours,

Mr. Matti Rihko
CEO
Raisio Plc
