Dear Mr. Secretary-General,

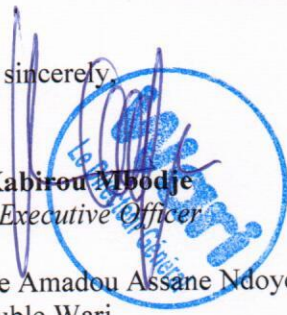

It is with great pride to confirm that Wari supports the ten principles of the Global Compact with respect to each of its issue areas: human rights, labour, environment, and anti-corruption.

Going forward, we intend to commit to making Global Impact and its principles part of our strategy, culture and daily operations of our company.

We have identified that the main requirement for participating in the Global Compact is the yearly submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. Public accountability and transparency is also imperative and we, therefore, commit to report on progress within one year of joining Global Impact as well as annually thereafter in accordance to the Global Compact COP policy, which will include the following:

1. A statement signed by the Chief Executive Officer expressing ongoing support for the Global Compact and to renew our commitment to this initiative and its principles. This is in addition to our initial letter of commitment
2. A plan of action that we have taken (or plan to undertake) in order to implement the Global Compact principles in each of the four issues areas
3. A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Yours sincerely,

Mr. Kabirou Mbodje
Chief Executive Officer
