New York, NY 10017 USA

Dear Mr. Secretary General,

I am pleased to affirm that Fundación E2E supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. Through this letter, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public as a member of Global Compact.

We also pledge to participate in and engage with the UN Global Compact in the following ways:

- Propose and implement partnerships on corporate sustainability and engage with other stakeholders to create meaningful, lasting changes for sustainable development;
- Support UN Global Compact business participants as they implement and report on their sustainability efforts; engage with Global Compact Local Networks; and support issue platforms and work streams in Colombia through our model and activities.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We are committed to comply with all necessary requirements.

We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy or as requested.

Thank you kindly for considering our membership request.

All the best,
