With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following ways : Propose and implement partnerships on corporate sustainability and engage with other stakeholders to support society around viewing sustainability through local lens , business can be a powerful source of innovation and implementation power. Furthermore, SDF will support UN Global Compact business participants as they implement and report on their sustainability efforts which is in line with SDF goals in close consistence with the SDGs. Finally, SDF will Join and/or support issue platforms and work streams specially in the Sustainable platforms and help to shape the most effective ideas, develop tools and research

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.
